**To: Prospective Remote Sensing Instrument (RSI) Vendors**  
**Subject: RSI Development Vendor Conference Invitation**

National Space Organization (NSPO) is developing an optical Remote Sensing Instrument (RSI) for its first remote sensing satellite in the second phase space program. In order to achieve the mission objectives, NSPO is looking for a contractor to encompass the supplies and services necessary for providing RSI Electronic Unit (EU), Focal Plane Assembly (FPA) and technology necessary to produce the RSI.

A conference will be called to solicit potential vendor's comments before the release of Request for Proposal. We are hereby extending an invitation to you to take part in this conference. The conference will take place at the NSPO meeting room either in the week of March 31 or the week of April 7, 2008.

You may contact Ms. Yachi Yang (email: [yachi@nspo.org.tw](mailto:yachi@nspo.org.tw)) for further details. We look forward to your active participation.
